To,  
Janette Sadik-Khan,  
Permanent Chair,  
Global Designing Cities Initiative.

On behalf of Kuala Lumpur City Hall (DBKL), I would like to express our support and appreciation for the Global Street Design Guide developed by GDCI. This guide aligns with our city's goals and provides a clear vision for enhancing the safety and quality of our streets for pedestrians, cyclists, drivers, and public transit users.

We view the Global Street Design Guide as an essential resource for planning our city's streets. It serves as a valuable tool to help us design streets and public spaces that are safe, sustainable, and conducive to the well-being of our community.

I, Mr. Sugumaran a/l S. Shanmugam, on behalf of Kuala Lumpur City Hall (DBKL) officially acknowledges the Global Street Design Guide in Bahasa Malaysia as a beneficial tool to supplement the work we do in the city in designing safe and sustainable streets and urban mobility.

Thank you.
